From: Judy Koehler 
Re: Some items for 2012 consideration.

1. I am assuming the new board will not want security at its regular board meetings. Our contract was originally signed by Gene Christopher in 2006 and signed by me again when Wackenhut merged with G4S. All contracts including that one must be entered, modified or canceled by Board vote. The original contract was modified to include security at Board meeting in January 2011 by Board vote. Therefore, the new Board must vote to eliminate security at its Board meetings, should it so desire. Once that vote is taken, the Supervisor can inform the company of the change in procedure. Contact information is in the folder and the Rolodex on the desk in the Board office.

2. The Supervisor is responsible for an annual security review with G4S. I have a notebook of all three security reviews we have had with the company, including both my letters of correction and our steps to take corrective action. I have left it in the Board office.

2. Tim Neilans has sensitive information that must be conveyed to the new board in executive session. The letter concerns ongoing legal matters that cannot be disclosed to anyone other than the Board. All Board members must realize that the information cannot leave executive session. I cannot stress strongly enough the seriousness of some situations the Board faces.

3. The Supervisor's confidential file is to be seen by no one other than the Supervisor and/or deputy supervisor. Those files are locked and must remain so. I will give the key to Tim Neilans for him to give to you at the organizational meeting.

4. I need to know who will be responsible for the personnel files that I have kept since I took office. I am aware that the Clerk was responsible for them under the former supervisor, but they have been my sole responsibility since then. The Town was cited by both a Comptroller's audit and our Gray audit for failure to keep personnel files properly segregated. We avoided being written up for a material defect because I corrected the situation before the audit was completed. They are in a locked cabinet in the Board office. Tim Neilans will have the key.

5. Tim Neilans will also have all my keys. I will give them to him on December 31.

6. The Freeman, Waterstreet, Hospital, Hospice, National Grid radio tower, etc. projects are all in folders that are up to date. Dan also has copies, but I have kept track of all the new developments. You will find a weekly meeting with the Code Enforcement Officer very helpful. We have a tremendous amount of development going on.

7. All the documents for Water District 9 are in reverse chronological order in a box in my office. The Clerk did not provide me a copy of the permit to drill under the State highway as I had requested. Therefore, that document is missing from the box. We worked hard to get that project out to bid before I left, but we could not get it all done. You should be able to do that in January for spring installation. There is in place a 2 year limit for a project. Any funds not expended within the two-year time period must be returned to the grantor. We moved expeditiously on this as soon as we received the award.

8. All the documents from Water 5 ext 1 and Water Improvement Areas 7 ABCD are in boxes in the office. All the required audits have been performed, and the CDBG grant has been closed out successfully. All grant funds have been de-obligated.

9. I trust the Clerk has copies of all the contracts we signed in the last 4 years. There are also copies in the file in the Board office, arranged alphabetically. There are also copies of all minutes from advisory boards.

10. I am removing all my personal possessions from the Board office.

11. I have another grant application under consideration with JCAP. I am not optimistic about it because I understand preference will be given to communities impacted by the fall flooding. However, if the Town should get an award, the Court personnel know what to do. You will not have to be involved in any part of it except vouchering the expenses and signing the final report.

12. There are folders for the Lewis Road project, a situation we inherited, which we have been unable to resolve to date.

13. The CDBG grant for Liberty Fresh will only need close-out procedures by the Board. Management of the funds has been taken over by the EDA.

14. Katelin Olson, the Executive Director of AMSA, would like to present the details of the New York Main Street grant at the January 9th regular meeting. In the past, we placed presentations early on the agenda so the students could see them. There will be a power point presentation on the grant itself. Please contact AMSA to confirm their attendance—589-2502.

15. I have prepared a notebook of all the documents for compliance with the requirements of the New York Main Street Grant. A copy of the actual accepted grant application final copy will not be available until January. (When you submit a grant application on-line, you do not get a copy until after the award has been made.) The Grant Administrator, Katelin Olson, will insert all the required documents in the notebook of record for the grant. As the next parts are completed, the Executive Director of AMSA will forward them to you for inclusion in a copy you can keep at the town with instructions as to where to place them.

16. If calls or messages come from contractors seeking to bid parts of the New York Main Street Grant, please refer them to Katelin Olson, Executive Director, AMSA—585-2502 or amsa@albionmainstreet.org. There will be a series of public

information sessions on the entire grant process—for building owners, contractors and persons interested in the Historic Preservation Tax Credits. I have placed this information on the window of the building. I will make copies of the SHPO Certification Process and Tax Incentive information available here and at the Village.

17. Once you have signed the New York Main Street contract, please make copies of the requirements available here and at the Village. Please make three copies of the signed contract for AMSA, which will insert them in the books of record that must be kept. Forward two to AMSA and keep one in the book I am leaving here. AMSA will handle all budget reports, forward them to you for your signature, and then send them to Albany. The procedure will be exactly the same as with our water district grants, except that the building owner will pay the bill, the Town will ask the State for the funds, the Town will receive the funds, and the Town will write the check to the building owner.

18. Water District 10, which would have to involve Gaines with a group of out-of-district users, has been laid out. It is ready for the income surveys. The information is in a folder in the Board office. I handled the surveys for 5 and 7, but I am certain the Clerk is familiar with the protocol. However, I have already met with Charlie Phillon about it, and it is definitely eligible for a CDBG grant—another big one.

19. I have spoken with Greg Parker from Empire State Development regarding a public hearing on the St. Gobain (Adfors) expansion. The hearing is currently scheduled in our courtroom on January 17 between 11 a.m. and 1 p.m. His contact information is 325-1994-ext 7056.

20. The Supervisor must personally sign all wire transfers for bond payments. A schedule of bond payments is on the wall in the Board office. Shelby usually sends the signature document electronically. You sign. Fax it to Lauren Plante (number in folder on desk). She calls and you personally to verify your signature.

21. After the checks are prepared by Shelby, they need to be aligned with the abstract.

22. #21 is also a useful tool for validating the bank statements. If you align checks with the abstract and the abstract with the bank statement, you can sign off on them and have adequate controls. This procedure was approved by the OSC.

23. You will need a water audit for 2011 and definitely a single audit in 2013 for 2012. Sarah has the tentative dates. You will be receiving over \$1.2 million in Federal and State money in that time period.

24. In our 2007 single audit, we were cited for:

A. Failure to segregate water clerk duties. We have not yet remedied that.
B. Failure of the highway department to follow purchasing policy. That is an ongoing struggle.

C. Using a signature stamp. All signatures must be originals.

25. The clerk cannot sign as the authorizing official on the vouchers, except those that come directly from her department. That duty cannot be assigned.

26. With reference to 23 and 24, failure to provide adequate internal controls will jeopardize our funding with Rural Development and our relationship with the bank. Please discuss with Marc O'Hearn at First Niagara.

27. You will need to complete Rural Development's Public Body Information Sheet and to provide all the documents required. I gave that list to Sarah. Some items

are not ready until March end, but I in the past I have sent the documents in as they become available.

28. Because of new banking regulations, it is your responsibility as Chief Financial Officer to handle all bank transfers and ACH payments. There is an absence of controls, especially in our case, if the duty is assigned elsewhere. You will need to be particularly careful because your wife is the deputy clerk and prepares the abstract.

I hope you find this information helpful.
