WHEREAS, ALBION has constructed and now operates water distribution systems to provide, supply and deliver water to certain residents of the Town of Albion; and

WHEREAS, but for Water District No. 1, BARRE supplies by way of surplus water, water to the remaining water districts established and constructed by ALBION; and

WHEREAS, the parties herein wish to formalize by way of this written agreement to insure the continued availability of water to ALBION and to ensure the usage and demand for water to BARRE for the period of this contract;

NOW, THEREFORE, in consideration of the mutual covenants herein contained, and other good and valuable consideration, it is agreed by and between the parties as follows:

Section 1: ALBION shall own, manage, operate and maintain, at its sole expense said water distribution system. ALBION shall enact and enforce the provisions of the New York State laws and sanitary code that prohibit cross connections and that requires devices to prevent backflow into municipal water systems as described herein.

Section 2: Extensions, expansions or repairs to ALBION'S distribution system shall only be made with the approval of BARRE and subject to the following requirements:

A. **WATER VAULT:** in accordance with plans and specifications provided by BARRE, which makes no representations or warranties and assumes no obligation or liabilities by the providing of such plans and specifications at a point satisfactory to BARRE.

B. **WATER MAINS AND DISTRIBUTION LINES** - as may be required by BARRE from a point satisfactory to it, ALBION shall obtain, in connection therewith, at its sole expense all necessary rights of way and/or easements, and all permits or licenses required by the laws or regulations of the United States of America, the State of New York or any political subdivision thereof. ALBION shall at its sole expense, in a manner approved by BARRE, its employees or agents, make the necessary connection with the BARRE line if necessary and shall give BARRE at least twenty-four (24) hours notice of the actual tapping and connecting with the said supply line which operations shall be done only at a time satisfactory to BARRE. ALBION shall reimburse BARRE for any expense incurred by BARRE in removing such foreign matter from said line and/or the disinfecting of said line or any part thereof and for any work required by any governmental authority.

C. Additional pumps and/or treatment facilities shall be installed in ALBION'S distribution system if required for compliance with any governmental requirements or for proper installation of the distribution system as deemed necessary by engineers retained by BARRE.

Section 3: BARRE shall deliver such water as ALBION from time to time requires. Water so furnished shall meet with all requirements of the State of New York Department of Health for potable water. However the failure of water so furnished to meet such requirements of said Department shall not relieve ALBION from payment at rates set forth herein for water delivered to ALBION as able as set forth.

Provided, however, in the event of acts of God or other emergencies or emergency uses, or for other reasons beyond control of BARRE, it is unable to provide water to ALBION, BARRE shall not be liable for any damages or injuries resulting from such failure

to ALBION of third parties, and such failure shall not be considered a breach of this agreement.

Section 4: It is understood that BARRE has not been provided with copies of the plan for the future distribution of water within the Town of Albion or plans and specifications for the construction of future distribution lines, for future water districts. BARRE warrants that the rate is the same to other bulk users (TOWNS) outside BARRE'S corporate limits. ALBION will have the right to be heard and opportunity to review the basis or justification of any rate increase and/or decrease with notification by BARRE to ALBION in writing three (3) months prior to said rate change. Any future increase and/or decrease will be the same to all bulk users (TOWNS).
